Professional Summary

Frontend Engineer with 2+ years of experience building scalable, high-performance web applications across multiple frameworks and tech stacks. Proven track record delivering complex dashboards, e-commerce platforms, and social media applications with multi-role authentication systems. Experienced in TypeScript, state management patterns, RESTful API integration, and responsive bilingual UI (RTL/LTR). Comfortable picking up any frontend framework and delivering production-ready results.

Experience

Frontend Developer (Vue/Nuxt) | Albaz Globe Ltd

Oct 2025 – Present

- Led frontend development of Ako Sayara, a scalable car marketplace built with Next.js, focusing on modular architecture and performance.
- Implemented real-time chat (SignalR) and an AI-powered assistant to enhance user engagement and support.
- Delivered a fully localized platform (AR/EN/KU) with advanced RTL support and optimized state management.

Frontend Developer (Vue/Nuxt) | Awammer Alshabaka - AAIT

Sep 2024 – Aug 2025

- Develop enterprise-grade web applications using Nuxt 3/4, TypeScript, and component-driven architecture with a focus on performance optimization and code reusability.
- Architected large-scale application using Nuxt 4 Layer Architecture, implementing a Domain-Driven Design (DDD) pattern with modular, reusable layers for components, composables, and configuration across a monorepo structure.
- Build multi-role authentication systems with RBAC supporting 4+ user types across education and social media platforms.
- Implement form validation (VeeValidate + Yup), real-time push notifications via Firebase Cloud Messaging, and real-time chat using SignalR.
- Collaborate with backend developers and designers in an Agile environment to deliver features on schedule. Collaborated in Agile sprints with backend developers to ensure smooth integrations.

Junior Frontend Developer | Elryad for Web Design

Jan 2024 – Sep 2024

- Developed responsive web applications using Vue.js, Nuxt.js, and Vuetify.
- Collaborated with backend developers to integrate RESTful APIs.
- Implemented state management using Pinia and Vuex.

Projects

Ako Sayara (AI-driven Car Marketplace): Architected and developed a scalable car marketplace using Next.js, integrating real-time chat, an AI assistant, and full i18n (AR/EN/KU) with advanced RTL support and type-safe APIs.

Bismar E-commerce Web App (B2B Construction Materials Marketplace): Architected a scalable Next.js application with a modular API layer (30+ endpoints), integrated an AI-powered assistant for recommendations and support, implemented real-time push notifications (FCM), and delivered a bilingual (AR/EN) platform with full RTL support and multi-step order tracking.

Mumayaz Dashboard (Training & Education Management Platform): Built a scalable enterprise platform with RBAC, complex management modules, real-time communication, analytics dashboards, and full i18n (AR/EN) with RTL support.

Thamenha Dashboard (Car Evaluation Service Management Platform): Built a production-grade Nuxt 3 dashboard with secure multi-step authentication (OTP, JWT), real-time order lifecycle tracking, financial management system (settlements, commissions, VAT), and a fully responsive bilingual (AR/EN) RTL-enabled interface.

FashionZid (Social Media Platform for Fashion Industry): Built a feature-rich social platform with multi-provider OAuth authentication, multi-format post creation (text, media, events), social interactions (likes, comments, shares), real-time chat, and Firebase-powered notifications and synchronization.

Technical Skills

- **Programming Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3, SASS, Pug
- **Frameworks & Libraries:** Vue.js 3 (Composition API), Nuxt.js 3, React.js, Next.js, Vuetify, MUI, PrimeVue, PrimeReact, Tailwind CSS, Bootstrap
- **State Management:** Vuex, Pinia, Redux Toolkit, Zustand
- **Tools:** Git, GitHub, npm, Webpack, Vite, Firebase
- **Soft Skills:** Team Collaboration, Critical Thinking, Agile Methodology
- **Architectures:** MVVM, Clean Architecture, OOP, Design Patterns, SOLID Principles
- **Other Skills:** Responsive Design, RTL/LTR Support, Internationalization (i18n), Performance Optimization, SEO (SSR/SSG), Accessibility (a11y), API Integration, Error Handling, Debugging, Code Optimization

Education

Bachelor's degree, Business/Commerce, General

- Zagazig University
- 2019 - 2023 (Graduated)

Certifications

Frontend Web Development Professional Certificate

- Udacity Nanodegree Program – Scholarship Sponsored by ITIDA
- Issued August 23, 2021
- <https://confirm.udacity.com/TLDCNP4E>

React Development Cross-Skilling Certificate

- Udacity Nanodegree Program – Scholarship Sponsored by ITIDA
- Issued September 03, 2022
- <https://confirm.udacity.com/SAZD2DH3>

Languages

- **Arabic:** Native
- **English:** Proficient
